

Carolina GSE Expands Relationship with Data Solutions Provider Flight Data Systems

Carolina GSE Becomes Authorized Reseller of Flight Recorder Testing Equipment

New Bern, NC - April 16, 2020 - Carolina GSE, a global provider of aviation ground support equipment solutions, is pleased to announce a new affiliation with Flight Data Systems (FDS), a manufacturer of innovative end-to-end flight data solutions. As a result, Carolina GSE will become an authorized reseller for flight data recorder (FDR) and cockpit voice recorder (CVR) testing equipment.

"We are very excited to become the first reseller of Flight Data Systems' suite of products. With our current expansion into test equipment, Flight Data Systems is a perfect fit for Carolina GSE. FDS has been in business for 25 years, and I am looking forward to seeing our teams work together closely in the coming months," said John Werner, President.

As a reseller for FDS, Carolina GSE will offer a quality product line of FDR and CRV test equipment. This expansion adds new products to Carolina GSE's portfolio with the end goal of becoming a one-stop hub for all ground support and test equipment. With the addition of Flight Data Systems test equipment, Carolina GSE is positioned to becoming the aviation industry's first choice supplier for ground support, maintenance, and testing solutions.

About Flight Data Systems

Flight Data Systems, founded in 1990 in Melbourne, Australia, seeks to drive operational efficiencies in aviation using their portfolio of data acquisition, data recording, data storage, and data analysis tools. Flight Data Systems aims to become one of the world's leading providers of end-to-end flight data solutions within aviation segment. For more information, visit www.flightdata.aero.

About Carolina GSE

Carolina GSE is based in New Bern, North Carolina, and is a trusted global leader in providing diverse categories of ground support equipment and offering extensive repair and overhaul services. Along with ground support equipment, Carolina GSE has expanded to avionics and FDR/CVR test equipment. Carolina GSE was founded in 2001 to serve individual aircraft owners, corporate flight departments, FBOs, maintenance facilities (MROs), military, and commercial airlines.
